

# Mutual of Enumclaw

Thoughtful is how we do things.

## We were founded on unity.

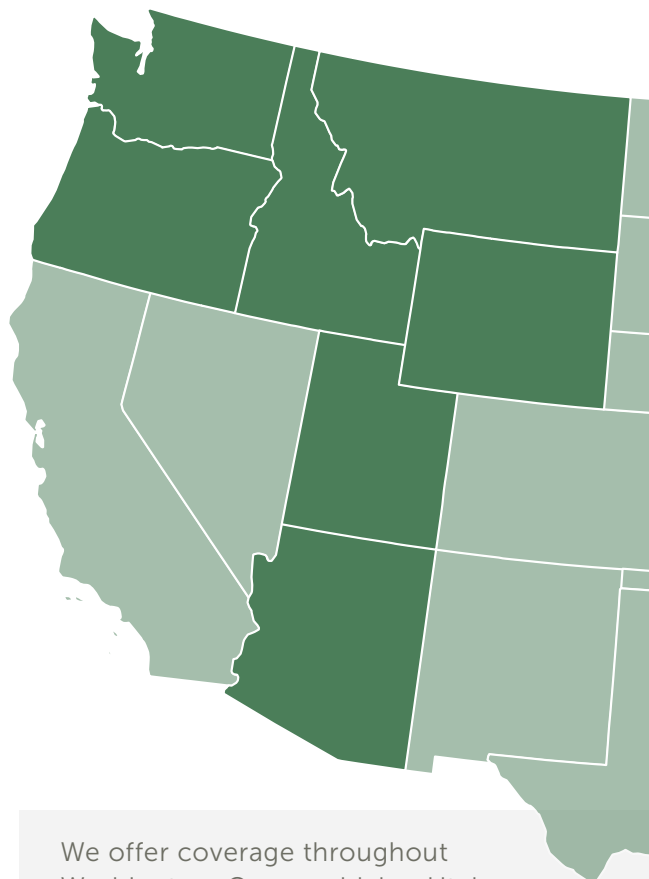

Over 120 years ago, we were started by a group of farmers whose goal was to help support and protect each other. That same spirit of thoughtfully looking out for one's neighbor remains today as we work for the mutual benefit and prosperity of our members, our local independent agent partners, and the communities we serve.

## Mutual means members come first.

We aren't beholden to stockholders. Our members are our owners. Putting their needs first is essential to achieving our purpose—to deliver an insurance experience so rare and valuable that it can't be found elsewhere.

## Thoughtful is more than a word.

For us, being thoughtful is everything. It's about doing what's right—knowing our members, considering every detail, planning ahead, and continually improving to provide an unparalleled experience.

We offer coverage throughout Washington, Oregon, Idaho, Utah, Arizona, Montana, and Wyoming.

## We provide coverage that really covers.

Our expertise is not the only thing we rely on as we craft comprehensive policies. We also collaborate with local independent agents who have a true understanding of their communities' circumstances. It is this shared knowledge and experience that helps us offer coverage designed specially with the unique needs of our members in mind.

### We craft policies for:

- Individuals and families
- Businesses
- Farms, ranches, and orchards

# Thoughtful has its advantages.

## Independent Agents

Our products are offered exclusively through agents who aren't tied to any one company. This means they can stay objective and recommend us only when they know it's a good fit.

## Nationally Recognized Claims Handling

Claims are handled promptly, with compassion, and a determination to do the right thing.

## Innovative Resources

We're always advancing in order to connect more with our members and help make their lives easier. That's why we developed smart videos, specialized offerings, and MOEstimate, our award-winning mobile app.

## Personal & Friendly Service

Our members and agent partners are part of the family. We have a heartfelt commitment to supporting and protecting each one of them.

## Happy Employees

This year, and for the past several consecutive years, our employees have recognized us as one of Washington's 100 Best Companies to Work For in *Seattle Business Magazine's* annual survey.

## Community Outreach

Giving back is part of our heritage. We support the communities that we call home through events, projects, and organizations.

### 2020 Financial Ratings

**A- (Excellent) with a Stable Outlook**

AM Best

**A' (A Prime) Unsurpassed**
